

ATTENTION

Minnesota Wastewater Professionals

Attending specific seminars at the
2010 Pumper & Cleaner Environmental Expo International
could earn you your CSE hours!

The Following Courses count toward your continuing education:

Table 1	
Presentation Title	Number and Type of Credits Awarded
Installer Academy: Soils and Site Evaluation Overview for Installers	1 Related Continuing Education Credit
Installer Academy: Installation Techniques and Material	1 Related Continuing Education Credit
Installer Academy: Installation Planning	1 Related Continuing Education Credit
Installer Academy: Installation Safety	1 Related Continuing Education Credit
Installer Academy: Piping Installation	1 Related Continuing Education Credit
Installer Academy: Watertight Tank Installation	1 Related Continuing Education Credit
Installer Academy: Homework	1 Related Continuing Education Credit
Installer Academy: Installation of Pressure and Gravity Distribution Components	1 Related Continuing Education Credit
Installer Academy: Installing Soil Treatment Areas I	1 Related Continuing Education Credit
Installer Academy: Installing Soil Treatment Areas II	1 Related Continuing Education Credit
Installer Academy: Installing Pressure Dosing Systems: Pumps & Controls	1 Related Continuing Education Credit
Installer Academy: Installing Aerobic Treatment Units	1 Related Continuing Education Credit

Table 1 continued	
Presentation Title	Number and Type of Credits Awarded
Installer Academy: Media Filter Installation	1 Related Continuing Education Credit
Installer Academy: Installing Disinfection Systems	1 Related Continuing Education Credit
Installer Academy: Installing Drip Distribution Systems	1 Related Continuing Education Credit

Installer Academy: Effluent Pump Sizing for Onsite Wastewater Applications	1 Related Continuing Education Credit
Installer Academy: Secondary and Advanced Treatment	1 Related Continuing Education Credit
Installer Academy: Zoeller Plant Tour	2 Related Continuing Education Credits
Installer Academy: Troubleshooting Chlorination and Dechlorination Systems	1 Related Continuing Education Credit
Installer Academy: Introduction to Remote Monitoring of Residential Aerobic Treatment Systems	1 Related Continuing Education Credit
Installer Academy: Design, Installation and Operation & Maintenance for the Pura-Mc (compact membrane) Systems	2 Related Continuing Education Credits
Installer Academy: Membrane Technology	2 Related Continuing Education Credits
Installer Academy: Drainfield Malfunction Investigation and Remedies	2 Related Continuing Education Credits
Installer Academy: Effluent Distribution	2 Related Continuing Education Credits
Installer Academy: Introduction to Onsite Drip Dispersal	1 Related Continuing Education Credit
Installer Academy: Soil and Site Considerations	1 Related Continuing Education Credit
Installer Academy: General Design and Layout of Drip Dispersal Systems	2 Related Continuing Education Credits

For more continuing education information, or for seminar schedule, visit our website at www.pumpershow.com or call **800-257-7222**.

Installer Academy: Dosing and Flushing	1 Related Continuing Education Credit
Installer Academy: Installation Techniques	2 Related Continuing Education Credits
Installer Academy: Operation & Maintenance	1 Related Continuing Education Credit
Manhole Inspections 'The Need'	1.5 Related Continuing Education Credits
Jetting Nozzles – Their Design, Technology and Effective Usage	1 Related Continuing Education Credit
Elevating the Quality of your CCTV Inspection Program	1.5 Related Continuing Education Credits
Septic Tanks: A Gift That Keeps on Giving	1.5 Related Continuing Education Credits
Softeners and Onsite Systems	1.5 Related Continuing Education Credits
Advanced Wastewater Treatment Systems – This is What They are and This is What They do	1.5 Related Continuing Education Credits
Sampling Protocols and Methods for Alternative Technologies	1.5 Related Continuing Education Credits
Dealing with Restaurant or High-Strength Waste	1.5 Related Continuing Education Credits
O & M for ATUs	1 Related Continuing Education Credit
O& M for Drip Irrigation	1.5 Related Continuing Education Credits
What to Expect When the EPA Comes A-Callin'	1.5 Related Continuing Education Credits
Pipe Inspections without an Operator?	1.5 Related Continuing Education Credits
Ways to Increase Your Daily Sewer Cleaning Production Rates without Increasing Your Costs	1.5 Related Continuing Education Credits
Proper Preparation of the Substrate Results in Coating Longevity	1 Related Continuing Education Credit
Trenchless Lateral Renewal Technologies – Lessons to be Learned and the Relevance of Standards, Materials and Installation Practices	1.5 Related Continuing Education Credits
Zoom Camera Technologies: The Next Level of Infrastructure Inspection	1 Related Continuing Education Credit
Waterblast Safety	1.5 Related Continuing Education Credits
Waterjet Applications and Business and Financial Considerations	0.5 Related Continuing Education Credits
Wastewater Characteristics	1.5 Related Continuing Education Credits
Soils and Site Evaluation Overviews	1.5 Related Continuing Education Credits
Septic Tank Overview: Function, Design, Construction, Inspection and Troubleshooting	1 Related Continuing Education Credit
Aerobic Treatment Units	1.5 Related Continuing Education Credits
Media Filters	1.5 Related Continuing Education Credits
Pumps and Controls	1 Related Continuing Education Credit

Table 1 continued

Presentation Title	Number and Type of Credits Awarded
COLE Publishing's Onsite Installer Course	8 Related Continuing Education Credits
Risk Assessment for Determining SVC Frequency	1 Related Continuing Education Credit
From Theory to Reality	1 Related Continuing Education Credit
Timed Dosing and Controls	1 Related Continuing Education Credit
Understanding the Biology and Function of an ATU	1 Related Continuing Education Credit
Pipe Cleaning Tools	1.5 Related Continuing Education Credits
How to Prevent I/I in the Manhole Chimney Area	1 Related Continuing Education Credit
Limpieza de Drenajes y Tuberías y la Elección de Boquillas	1.5 Related Continuing Education Credits
Formando un Programa Eficaz de Inspecciones CCTV	1 Related Continuing Education Credit
Identifying Manhole I/I Sources and Cost-Effective Repair Methods	1.5 Related Continuing Education Credits
Jet Up! Taking Science to the Sewer	1.5 Related Continuing Education Credits
Cured in Place Pipe vs. Digging and Replacing	1 Related Continuing Education Credit
Safety in Excavation	1.5 Related Continuing Education Credits
Comprehensive Control Panel Training / SJE Rhombus	1.5 Related Continuing Education Credits
Onsite Wastewater Effluent Disinfection	1 Related Continuing Education Credit
Dewatering Alternatives	1.5 Related Continuing Education Credits
The Role of Bacteria and Bioaugmentation in Grease Traps and Septic Systems	1 Related Continuing Education Credit
OSHA Procedures Regarding Confined Space	1.5 Related Continuing Education Credits
